American Leather Chemists Association

VOLUME XLIX 1954

PUBLISHED MONTHLY BY
THE AMERICAN LEATHER CHEMISTS
ASSOCIATION

EASTON PRINTING COMPANY, PRINTERS
EASTON, PA.

The Journal of the
American Leather Chemists Association

INDEX TO VOLUME XLIX, 1954

Numbers refer to pages. (A) indicates an abstract. (P) indicates a patent.

INDEX TO AUTHORS' NAMES

ABRAMOVNA, J, See Raabe, E.
ALBERTY, R. A., See Dismukes, E. B.
ALPS, H. A., See Goetz, A. W.
ALTMAN, R. T., See Benson, S. W.
AMERICAN CYANAMID COMPANY. Making Leather. (P) 533
ANG, K. P., See Green, R. W.
ANUSZ, L., N. B. Oliveira and C. C. Oliveira. pH of Pickle in Tanning with Black Acacia Tannin. (A) 116
L., See Gutheil, N. C.
APANAEV, O. S., Characteristics of Syntan AN Made with Oleum. (A) 114
APPLETON, L., Determination of Nitrogen by Conductivity Measurement of Ammonium Borate-Boric Acid Solutions. (A) 446
AREND, H. T., Fatliquoring of Leather. (A) 306
ARNDT, U. A., See Riley, D. P.
ASHWORTH, D. R., See Chayen, I. H.
ATHERTON, E., and R. H. PETERS, Determination of Particle Size of Leather Finishing Agents. (A) 593

BAKER, C. G., and H. A. SOBER, Application of Ion Exchange Chromatography to Enzymatic Resolution of Amino Acids. (A) 309
BANERJEE, M., J. K. DEY, and D. GHOSH, Acid and Salt Absorption in Pickling. (A) 443
M., and P. K. SARKAR, Standards for Leather Manufactured in India. (A) 411
BARAT, S. K., See Burton, D.
BASINSKI, A., M. CZERNIAWSKI and J. SKRACA, Viscosity and Structure of Vegetable Tannins. (A) 310
BATZER, H., Leather and Tanning Agents. VI. Ultramid 6A as Adsorbent in Tanning Analysis by Filter Method. (A) 117
H., Leather and Tanning Agents. IX. Application of Plastics in Sole Leather Manufacture. (A) 532
H., Leather and Tanning Materials. X. Estimation of Tannin by Adsorption on Polyamides. (A) 596
BAUM, M., R. C. CAMP and J. R. SALVESEN. Tannin Analysis Method—Problems and Modifications. 281
BAYER, Z., How to Improve Conservation of Pig Skins. (A) 308
BEAR, R. S., See Cohen, C.

BEEBE, C. W., W. F. HAPPICH, W. S. KIP and J. S. ROGERS, Alum Retannage of Vegetable Tanned Insoles Improves Their Serviceability 630
C. W., W. S. KIP, W. F. HAPPICH and J. S. ROGERS, Canaigre Investigations. XI. Canaigre Root Tannin Makes Serviceable Leather 228
C. W., See Happich, M. L.
BELLAVOINE, L., Method of Making Composite Sole Leather (P) 533
BENESCH, R. E., and BENESCH, R., Model for Configuration of Sulfhydryl Groups in Proteins. (A) 309
R., See Benesch, R. E.
BENNETT, H., and R. W. PEARMAN, Spent Mangrove Bark from North Borneo. (A) 307
H., and R. W. PEARMAN, Mopani Bark from Bechuanaland Protectorate (A) 307
BENSON, S. W., R. T. ALTMAN, R. I. RICHARDSON and J. M. SEEHOF, Role of Water Vapor on Stoichiometric Reaction of Solid Proteins with Polar Gases. (A) 452
S. W., and J. M. SEEHOF, Surface Areas of Proteins. VI. Vapor Phase Titrations with Polar Gases. (A) 309
BERENS, A. S., Report of Mechanical Leathers Committee 15
BINKO, I., Application of Chloroprene Latex to Finishing of Leather. (A) 306
I., and J. KOLAV, Sulfonated Novolaks as Synthetic Tannins. II. (A) 304
I. and K. MULLER, Semiworks Testing of Synthetic Tannins. (A) 303
BLANCHER, G., Object and Importance of the Hydroxyl Number. (A) 236
BLOCKEY, J. R., and D. H. TUCK, Coloration of Leather. (A) 409
BOCCIARDO, P., Loose Grain as Consequence of Hydrolysis. (A) 311
BOGAEWSKI, M., Rapid Method for Dyeing Furs. (A) 528
BOLGAR, L., Making Leather. (P) 535
L., Synthetic Tanning Agent. (P) 535
L., Tanning. (P) 534
BORKENHAGEN, L. K., Process for Preparing Amino Acids. (P) 462
BOWLES, A. V., See Putnam, R. C.
BRADSTREET, R. B., Kjeldahl Method for Organic Nitrogen. (A) 459
BRAYBROOKS, W. E., and R. S. MITTON, Oak Bark Tannage: Effects of Variation in Layering. (A) 796
BRIHTA, I., A. GLAVAS and J. DUGOSEVIC, New Tanning Agent — Furfuryl Alcohol. (A) 310
BULANZHE, I. N., See Fokina, N. S.
BURTON, D., and L. F. BYRNE, Constitution of Sulfated Oils. VI. Effects of Variations in Method of Manufacture on Composition of Sulfated Fish Oil. (A) 592
D., and L. F. BYRNE, Constitution of Sulfated Oils. V. Effects of Variations of Preparation on Composition of Sulfated Oleic Acid. (A) 315
D., and S. K. BARAT. Vegetable Tanning. VIII. Properties of Babul Bark (Acacia Arabica). (A) 796
D., and M. THOMPSON, Comparison of Methods of Determining Percentage Basicity of One Bath Chrome Liquors. (A) 640
BYCICHIN, A., C. HALAMEK and K. HLAVACEK, Studies of Tannery Effluents. (A) 303
BYRNE, L. F., See Burton, D.

SUBJECT INDEX

Accidents Caused by Cutting Presses, Prevention of—. M. Voyer. (A) 704
Acid Groups, Coordination of—to Chromium. S. G. Shuttleworth. (A) 792
Acidity, the Principal Difference between Modern English and German Sole Leather Tanning Methods. G. H. W. Humphreys. (A) 70
Acid in One Bath Chrome Liquor, Method for—. 491
Swelling, Distribution of Ions between Hide Substance and Surrounding Liquid During—. O. V. Matveeva and A. N. Mikhailov. (A) 303
Adhesives, Protein, from Animal Glue, Hydrazide and Formaldehyde. G. O. Orth. (P) 463
Synthetic Resin—. P. Gourlay. (A) 520, 525
Aging Characteristics of Side Leather. W. T. Roddy and J. J. Jansing. 773
Air Conditioning and Climatization and Their Industrial Application. (A) 795
Permeability of Leather, New Apparatus for Measuring—. F. Föhr. (A) 121
Aliphatic Oxides in Tanning and Oiling. E. Immendorfer. (A) 457
Alkalinity of Lime Liquors, Determination of Total Caustic—. 251
Alkali Treatment of Collagen on pH Swelling Curve of Collagen and of Gelatin Products Prepared from It, Effect of—. W. A. Loeven. (A) 696
Alsop Award, Acceptance of—. R. M. Lollar 552
Award Committee 5
Award, Presentation of—. M. Maeser. 551
Alumina in Leather, Determination of—. H. V. Kubelka and J. Hradsky. (A) 306
Aluminoferric, Trade Effluent Treatment with—. J. H. Harwood. (A) 788
Alum Retanage of Vegetable Tanned Insoles Improves Their Serviceability. C. W. Beebe, W. F. Happich, W. S. Kip and J. S. Rogers. 630
Amide Nitrogen in Collagen and Other Proteins, Determination of—. E. F. Mellon, S. J. Viola and S. R. Hoover. 710
Amine Acids Freed Direction or Through Peptides from Hides During Liming. S. Kikuchi, Y. Ito and S. Kawasaki. (A) 459
Amino Acids, Application of Ion Exchange Chromatography to Enzymatic Resolution of—. C. G. Baker and H. A. Sober. (A) 309
Acids, Process for Preparing—. L. K. Borkenhagen. (P) 462
Ammonia in Bate Waters, Determination of—. 250
Analytical Precipitations, Additional Agents in—. R. T. Fischer and T. B. Rhinehammer. (A) 459
Animal Skin Proteins, Studies of—. XI. Separation of Protein Constituents of Animal Skin. R. L. Stubbings. 659
Annual Meeting, Fiftieth—. 544
Ansul Method for Production of Chrome Liquors with Sulfur Dioxide. (A) 524

Antiseptics and Germicides in the Leather Industry. U. J. Thuau. (A) 320, 523, 527, 704, 795
Aspergin. B. Vitar. (A) 408
Astringency of Vegetable and Chrome Tanning Liquors. C. Gastellu. (A) 793

Babul Bark, Properties of—. D. Burton and S. K. Barat. (A) 792
Barcelona Conference of I.U.L.C.S., Report from 5
Barium Sulfate, Rapid Precipitation of—. R. B. Fischer and T. B. Rhinehammer. (A) 409

Extract. P. Peureux. (A) 321
Official Certification of Leather Analysis. 490
Oiling, Aliphatic Oxides in Tanning and—. E. Immendorfer. (A) 457
Materials, Examination of Leather—. R. Schubert. (A) 122
Oil, Sulfated Fish, Effects of Variations in Method of Manufacture on Composition of—. D. Burton and L. F. Byrne. (A) 592
Tanning, Chemistry of—. II. Chemical Nature of Bonds Between Peroxidized Fats and Collagen. J. W. Pedersen and J. Glavind. (A) 116
Oils and Fats in the Leather Industry. M. B. Das 411
Oils, Fats and Their Products, Methods for Analysis of—. See Methods.
Oils, Formation of Peroxide Groups in—. J. Glavind and J. W. Pedersen. (A) 116
Mineral, in Leather Lubrication. R. M. Koppenhoefer. (A) 444
Neatsfoot, Analysis of—and Their Substitutes. J. Pore. (A) 699
Sulfated, Application of—in Fatliquoring Process. S. K. Ford. (A) 448
Sulfated, Constitution of—. V. D. Burton and L. F. Byrne. (A) 315
Sulfated, Constitution of—. VI. D. Burton and L. F. Byrne. (A) 592

Pancreatic Products Used in Removing Hair, Evaluation of—. N. C. Gutheil and L. Anusz. (A) 460
Para-Nitrophenol as Fungicide for Leather. R. M. Lollar 605
Parkia Filicoidea Pods from Nigeria. R. W. Pearman. (A) 307
Particle Size Determination of Leather Finishing Agents. E. Atherton and R. H. Peters. (A) 593
Paulng-Corey Alpha Helix in Synthetic Polypeptides. W. Cochran and F. H. C. Crick. (A) 446
Permeability of Leather to Water Vapor, Method of Measuring—. L. G. Davis. (A) 524

Perspiration, Fastness to—. (A) 445
Petriks' Passive Paper in Leather Industry, Mode of Action and Possible Use of—. F. Kirnbauer. (A) 70
Petroleum Ether Extract of Vegetable Tanned Leathers, Method for—. 469
pH of Mineral Tanned Leather, Method for—. 504
Phosphate Tannage in Manufacture of Vegetable Tanned Leather. C. Riess. (A) 520
Phosphates in Egg Yolks, Colorimetric Determination of—. V. Kubelka and Z. Novak. (A) 305
pH Value of Beamhouse Liquors, Determination of—. 257
Value of Vegetable Tanned Leather, Method for—. 487
and rH in the Tannery, Application of—. C. Gastellu. (A) 236
Physical Testing Committee, Report of—. M. Maeser. 541
Pickle, pH of—in Tanning with Black Acacia Tannin. L. Anusz, N. B. Oliveira and C. C. Oliveira. (A) 116
Pickling, Acid and Salt Absorption in—. M. Banerjee, J. K. Dey and D. Ghosh. (A) .. 443
of Sheepskins. R. A. Hauck and R. M. Lollar. (A) 447
Pig Skin, Scalding of—. F. Stather. (A) 130
Pigskins, Damage to—Resulting from Scalding by Dresden Scalding Process. F. Stather. (A) 325
How To Improve Conservation of—. Z. Bayer. (A) 308
Plastic Finishes. J. Ghosh. (A) 410
Plastics in Sole Leather Manufacture. Application of—. H. Batzer. (A) 532
Polarographic Studies in Leather Chemistry. IV. A. K. Vlcek, E. Spalek and L. Kratky. (A) 301
Studies in Leather Chemistry. V. A. K. Vlcek, E. Spalek and L. Kratky. (A) 304
Polyamides, Estimation of Tannin by Adsorption on—. H. Batzer. (A) 596
Tanning Experiments with—. A. Küntzel. (A) 117
Polypeptides, Pauling-Corey Alpha Helix in Synthetic—. W. Cochran and F. H. C. Crick. (A) 446
Polyvinyl Alcohols in Leather Processing. T. A. Dickinson. (A) 310
President's Address. H. G. Turley. 544
Pretanning and Posttanning Operations Committee, Report of—. H. B. Merrill. 11
Procter and Searle Number of Vegetable Tanned Leathers. Method for—. 488
Productivity Campaign. (A) 521
Proofing Materials Against Insects. Geigy Co., H. T. Fergusson and R. Williamson. (P) 536
Properties of Leather of Importance to Tanner, Shoe Manufacturer and Wearer. H. Phillips. 574
Protein Adhesives from Animal Glue, Hydrazide and Formaldehyde. G. O. Orth. (P) 463
Crystals in Salt Solutions, Composition and Hydration of—. T. L. McMeekin, M. L. Groves and N. J. Hipp. (A) 452
Fibers, Combining Reactions between Aromatic Substances and—. G. Otto. (A) 123
Fibers, Synthetic and—. (A) 795
Gels, Role of Thiol Group in Formation of Alkaline—. H. G. Higgins, D. Fraser and J. F. Hayes. (A) 449
Material, Water Resistant—. J. Hagemeyer. (P) 462
Monolayers, Tanning of—by Metal Ions. J. H. Schulman and M. Z. Dogan. (A) 448
Structure, Infrared Dichroism and—. B. D. B. Fraser and W. C. Price. (A) 449
Proteins, Action of Formaldehyde on—. III. R. D. Haworth, D. H. Peacock, W. R. Smith and R. MacGillivray. (A) 448
Estimation of Sulfur in—. P. H. Rao. 755

Mediation by Metals of the Building of Small Molecules of—. I. M. Klotz and W. C. Lohming. (A) 452
Model for Configuration of Sulfhydryl Groups in—. R. E. Benesch and R. Benesch. (A) 309
Role of Water Vapor on Stoichoimetric Reactions of Solid—with Polar Gases. S. W. Benson, R. T. Altman, R. I. Richardson and J. M. Seehof. (A) 452
Studies of Animal Skin—. XI. Separation of Protein Constituents of Animal Skin. R. L. Stubbings. 659
Surface Areas of—. VI. S. W. Benson and J. M. Seehof. (A) 309

Quebracho Extract, Fractionation of—. K. S. Kirby, E. Knowles and T. White. (A) 312
Liquors, Relative Merits of Ordinary and Sulfited—. H. Giovambattista, A. A. Giacomi and W. O. Palavecino. (A) 115
Tannin Extract, Examination of Fractions of—. K. S. Kirby and T. White. .....
Quercetin as Colorimetric Reagent for Determination of Zirconium. F. S. Grimaldi and C. E. White. (A) 409

Rabbit Fur, Chemistry of Carrotting. II. P. Hückel and H. G. Fröhlich. (A) 445
Red Color in Leather, Precursors of—. W. E. Hillis. (A) 640
Rendering, Application of Impulse to Animal Fat Industry. I. H. Chayen and D. R. Ashworth. (A) 412
Resin Impregnated Water Resistant Leather. N. D. Cheronis. (P) 464
Tannage I. Tanning with Dimethylolurea. Y. Hachihama and Y. Kyogoku. (A) 303
Resins, Formaldehyde-Dicyandiamide—and Treatment of Leather Therewith. W. O. Dawson and L. Sellet. (P) 460
Nylon, for Leather Processing. T. A. Dickinson. (A) 450
Rossander. S. S. - Obituary. 466

Saddler, Art of—. M. de Buccar. (A) 748
Salting Tests on Calf Skins. P. Chambard. (A) 318
Tests for Calf Skins in Presence of Antiseptics. H. Vourloud and G. Desjours. (A) 317
Salt Penetration into Hides, Stratigraphic Distribution of—. C. C. Kritzinger and J. H. M. VanZyl. 91
for Salting Hides, Adulteration of Industrial—. E. Simoncini. (A) 309
Stains, Investigations on—. A. Küntzel and T. Stirtz. (A) 694
Sample Preparation, Effect of—on Precision in Hide Substance Determination. S. Dahl. 515
Sampling of Mineral Tanned Leather for Chemical Tests, Methods for—. 493
of Vegetable Tanned Leathers, Methods for—. 466
Saxe, Alexander. Obituary. 328
Scalding of Pig Skin. F. Stather. (A) 130
Scouring, Mechanical Scudding and—. (A) 795
Scudding and Scouring, Mechanical—. (A) 795
Seal Skins, Chrome Leather from—. M. Y. Kutovskii. (A) 306
Secretary's Notice. 173, 329, 645
Sheepskin Pieces, Water Digestion of—. W. G. Crewther and T. A. Pressley. (A) 408
Sheepskins, Depilation of—with Enzymes. J. M. Gillespie. (A) 453
Dewooling of—. P. Gourlay. (A) 321
Pickling of—. R. A. Hauck and R. M. Lollar. (A) 447
Sudanese, Curing of—. M. Dempsey, J. R. Furlong and E. Knew. (A) 451
Sun Dried, Influence of Breaking Over During Soaking on Water Uptake. G. H. Green. (A) 789

Shoe Finishes, New Developments in—. D. P. Ciaccio. (A) 451
Shrinkage of Insole Leather under Action of Sweat. W. Grassmann and P. Stadler. (A) 528
Silica Particles, Plumping Leather with Sol of Large—. I. L. Haag. (P) 463
Skin. See Hide.
Skins, Congress of International Society for Improvement of Leather and Raw—. H. Vourland. (A) 527
Degreasing—. S. Friestedt. (P) 534
and Hides, Liming—. S. Payne. (P) 534
Soak Waters, Method for—. 243
Soaking Problems of Indian Raw Hides. J. Ghosh. (A) 443
Solids and Ash of Beamhouse Liquor, Determination of—. 246
Solvent Tannage. F. O'Flaherty. (A) 410
Splitting, Effect of— on Tensile Properties of Leather. M. Maeser and O. J. Dion 262
Spoilage of Stored Wet Salted Hides. C. C. Kritzinger 99
Spue Formation and Run in Chrome Gloving Leather, Influence of Fatliquor on—. R. H. Hall, R. G. Mitton and K. G. A. Pankhurst. (A) 749
Stains, Salt. A. Küntzel and T. Stirtz. (A) 694
Standards for Leather Manufactured in India. M. Banerjee and P. K. Sarkar. (A) 411
and Specifications Committee, Report of—. C. G. Telander 12
Starch Indicator, Preparation of Stable—. W. D. Nordling. (A) 301
Status of the Association 706
Stoppers, Removal of— from Tubing. R. Huber. (A) 301
Stream Pollution, Case Histories of—. (A) 447
Pollution Committee, Report of Rhode Island Sectional—. (A) 447
Pollution Control, Charting Course for Future of—. K. S. Watson. (A) 317
Pollution, Symposium on—. (A) 447
Sulfates in Beamhouse Liquors, Method for—. 257
in Leather, Method for—. 500
Sulfhydryl Groups in Proteins, Model for Configuration of—. R. E. Benesch and R. Benesch. (A) 309
Sulfides in Lime Liquors, Method for. 255
Sulfite Cellulose Extract in Tanneries. O. Skaar. (A) 412
Waste Liquor Extract in Tanning Matters and Poor in Ash and Salts. Zellstoffabrik Waldhof. (P) 132
Sulfur Dioxide, Ansul Method for Production of Chrome Liquors with—. (A) 524
in Proteins and Leather, Estimation of—. P. H. Rao. 755
Swelling of Collagen and Modified Collagen. J. M. Cassel and E. McKenna. 553
of Skin, Effect of Beamhouse Treatment on—. R. Stubbings. (A) 453
Syntan AN Made with Oleum, Characteristics of—. O. S. Apanaev. (A) 114
Syntans. W. S. Short. (A) 410
Synthetic Replacement Tannins, Evaluation of—. F. Stather and H. Herfeld. (A) 131
Resin Adhesives. P. Gourlay. (A) 520, 525
Tanning Agent. L. Bolgar. (P) 535

Tackiness of Finish on Leather, Determination of—. 261
Tannage, Iron, in Presence of Gluconic Acid. P. Chambard and D. Martin. (A) 321
Solvent—. F. O'Flaherty. (A) 410
Vegetable, by Means of Modified Collagens and Polyamides. K. H. Gustavson. (A) 748
Vegetable, Mechanism of—. S. G. Shuttleworth. (A) 311

Tannages, Combination—. Vegetable Tanning of Chrome Tanned Hide Powder and Pelt. P. H. Rao. 719
Tannery Effluents, Methods for Examination of—. H. Spahrkäs. (A) 72
Effluents, Studies of—. III. A. Bycichin, C. Halamek and K. Hlavacek. (A) 303
Practices Committee, Report of—. R. G. Henrich 12
Waste and Domestic Sewage at Fond Du Lac, Wis., Treatment of—. B. J. Hartman (A) 788
Waste Waters, Treatment and Disposal of—. H. Scholz. (A) 71
Tannin Analysis Method— Problems and Modifications. M. Baum and R. C. Camp and J. R. Salvesen. 281
Analysis, Minutes of Meeting of Supervisory Committee on—. J. F. Wagoner. 541
Analysis, Ultramid 6A as Adsorbent in— by Filter Method. H. Batzer. (A) 117
of Bark of Eucalyptus Sideroxylon. P. Chambard. (A) 701
of Bark of Salix Koriyanagi. I. K. Sakata and J. Kishimoto. (A) 113
Bearing Plants in Czechoslovakia, Cultivation of—. J. Kahelik. (A) 304
Combined, and Degree of Tannage, Method for—. 483
Estimation of— by Adsorption on Polyamides. H. Batzer. (A) 596
Evaluation of One Hundred Sixty Three Species of Plants. M. L. Happich, C. W. Beebe and J. S. Rogers. 760
Extracts, Sulfitization of—. M. N. Krasukhin. (A) 114
Fixation Value of Natural Tanning Agents. E. Kubeckova, L. Pospisil and M. Pokorny. (A) 303
Hemlock Slabs as Source of—. N. F. Roger, W. H. Koepp and E. L. Griffin, Jr. 75
Quantitative Determination of— with Aid of Metal Salts. A. Haglund. (A) 67
Residues, Drying of—. A. Jamet. (A) 318
SPS, Synthetic—. P. S. Konovalenko. (A) 302
Tanning. L. Bolgar. (P) 534
Agent. Furfuryl Alcohol as—. I. Brihta, A. Glavas and J. Dugosevic. (A) 310
Agent, Synthetic—. L. Bolgar. (P) 535
Agents. W. B. Stoddard. (P) 462
Agents, Alkali Lignin—. W. B. Stoddard. (P) 462
Agents, Mineral, Combination of Chrome with Other—. G. Otto. (A) 458
With Basic Chrome Salts in Presence of Ammonium Sulfate Salts, Characteristics of—. S. A. Kuraitis, I. A. Khokhlov and A. M. Lyubimova. (A) 302
with Black Acacia Tannin, pH of Pickle in—. L. Anusz, H. B. Oliveira and C. C. Oliveira. (A) 116
Chemistry of—. I. Formation of Peroxide Groups in the Oils. J. Glavind and J. W. Pedersen. (A) 116
Chemistry of Oil—. II. J. W. Pedersen and J. Glavind. (A) 116
Chrome, Fifty Years of Progress—. B. D. Eisendrath. 52
Chrome, Kinetics of—. H. M. von Thaden. (A) 120
Chrome, New Mechanism of—. I. P. Strakhov. (A) 114
Experiments with Polyamides. A. Küntzel. (A) 117
Extracts, Comparison of Berkfeld and Chamberland 3C L I Candles in Filtration of Aanlytical Solutions of—. A. Jamet. (A) 701
Extracts, Report of Committee on Determination of Copper and Iron in Vegetable—. G. Forsyth. (A) 592
of Fatty Acids and Protein Monolayers by Metal Ions. J. H. Schulman and M. Z. Dogan. (A) 448
of Heat Stable Youfts. M. S. Ovrutskii and S. Chaikovskii. (A) 302
Hide Powder with Chromium Chloride-Sodium Chloride Solutions, Anomalous Neutral Salt Effect in—. A. Kuntzel and F. Naumann. (A) 124

Influence of— on Combination of Dyes with Leather. H. Loewe. (A) 69
Liquors. Astringency of Vegetable and Chrome—. C. Gastellu. (A) 793
Material, Ironwood of Malabar as—. P. H. Rao. 113
Materials, Caesalpinias as—. F. N. Howes. (A) 307
Materials, Eucalypts as—. R. W. Pearman. (A) 307
Materials, Filter Method for Quantitative Analysis of—. (A) 639
Materials, Grinding of— in the Laboratory. C. Monnet. (A) 702
Materials, Mineral, Methods for Analysis of—.
Acid in One Bath Chrome Liquor. (A) 491
Basicity in One Bath Chrome Liquor 492
Chromic Oxide in One Bath Chrome Liquor 490
Materials and Process for Preparing Same. K. P. Monroe. (P) 461
